**Date:** Monday, December 1, 2014 10:44:47 AM

---

# Congratulations!

Your trademark, [REDACTED] was processed by the U.S. Patent and Trademark Office and was given the serial number [REDACTED]. You can use this serial number to track the status of your trademark.

Checking your trademark status manually can be tedious, so we've created a free service to alert you to changes to your trademark status. Our service automatically checks your trademark's status **daily** with the U.S. Patent and Trademark Office and alerts you **immediately** of any change in status. And it's absolutely free!

[Sign up for free status updates »](#)

We also provide a comprehensive, automated trademark service. As you may know, other companies can register trademarks that are similar to your own, and **it's your responsibility to contest them**. Our service gives you the tools you need to get alerted about trademarks that are similar to your own and take action. Although your trademark isn't yet officially approved, it's still a good idea to keep track of what other trademarks are being registered, in case they're similar to your own.

## AUTOMATED TRADEMARK MONITORING

# Weekly Automated Monitoring Service, Annual Subscription

### Includes:

- **Direct Matching:** We notify you of any direct word matches from your mark.
- **Phonetic Matching:** "Brooks" and "Brukes" will match. "Loop" and "Loupe" will match. "Life" and "Lihfe" will match. We make sure deceptive sound-alike marks don't get past your radar.
- **Approximate Matching:** Words that differ within 2-3 characters will be reported to you.
- **Custom Match:** We can customize the match algorithm to your needs. Want to match for any mark that starts with "Mc"? We can do that for you. Any language expression can be put into our system for you. Contact us with your mark for more information and some examples.
- **Class Weighting:** Even though we search all classes, there are a few classes of goods and services for which an infringing mark would cause the most damage. We highlight trademarks in these classes in your match results.

You'll also be notified in the weekly email report of potentially conflicting domain name registrations and be able to generate a trademark or domain name violation form letter from the Trademark Safeguard reporting system. Reports are customizable and accessible online.

**Monitoring package:** Weekly monitoring

**One Year Subscription** ~~\$375~~ **\$318.75** (15% discount for new trademark owners)

Membership lasts for one year, and is renewable annually. The price includes twelve (12) months of monitoring starting from the day after you sign up.

### Enter Your Serial Number to Get Started:

Enter your serial number here, so we can pre-load your trademark information. Leave this field blank if you don't yet have a serial number.
